Education & Skills

University of Florida

Gainesville, FL

Bachelor of Science in Computer Science; Minor in Economics; GPA: 3.7/4.0

Aug. 2023 – May 2027 (expected)

- Coursework: Data Structures & Algorithms, Operating Systems, Linear Algebra, Software Development
- Technical Skills: Java, Python, C++, JavaScript, HTML/CSS; React, Node.js, Next.js, MongoDB, Firebase; Git, AWS, CI/CD; Adobe Creative Suite (Premiere Pro, After Effects, Photoshop); MS Office (Word/Excel/PowerPoint/Visio)

Experience

Snapback Sports

New York, NY

Software Development & Content Intern

July 2026 – Present

- Built Snapback Saturdays, an immersive college football fan hub (React, Firebase, Cloudflare Workers/D1) featuring flight, hotel, and gameday planning for every college football game, alongside a live schedule across 16 stops and a unified content hub that localizes Snapback's content across every platform in one place.
- Developed four browser games (17-0, Chain, Highest Bid, and Higher or Lower) using Cloudflare D1 and TanStack Start, and shipped them into the Snapback Trivia app, reaching over 100,000 users.
- Led social media content strategy and execution across TikTok, Instagram, and Twitter (@snapbackinterns), growing the account to 3.7K followers and driving 23.9 million impressions and 453K likes.
- Authored a multi-platform content partnership pitch for Trove, mapping a weekly social content calendar that leveraged team access to major sporting events (NBA Draft, World Cup, NBA Finals).

LittleOne.Care

Tel Aviv, Israel

Full Stack Developer Intern

May 2025 – Aug. 2025

- Designed and developed the company website with a responsive UI across desktop and mobile.
- Implemented front-end components using React.js, HTML, CSS, and JavaScript to deliver an accessible UX.
- Built and optimized back-end services with Node.js, React Native, and MongoDB for scalable, integrated APIs.

The TAMID Group

Gainesville, FL

Technical Consultant

Aug. 2024 – April 2025

- Built back-end functionality for an Israeli startup (DoroTech) based on Figma designs and product requirements.
- Designed and implemented software solutions tailored to client needs using analytical and technical expertise.
- Researched Israeli companies to identify technological pain points and propose innovative solutions.

Matthews Southwest

Dallas, TX

Real Estate Technical Intern

Jul. 2022 – 2024

- Supported the implementation and upkeep of building technology systems, applying object-oriented programming fundamentals when evaluating system behavior and troubleshooting issues.
- Designed and deployed smart building solutions that improved energy efficiency and operational performance.
- Created schematics, diagrams, and workflow guides, using Word, Excel, and PowerPoint to standardize team processes.
- Managed project tasks with strong attention to detail, helping the team stay organized and maintain clear communication throughout each phase of development.

Projects
